2022 Product Catalog

Products you need. Service you deserve.

Snap One delivers 6,000+ high-quality, innovative, proprietary, and distributed products exclusively to integrators, contractors, and installers like you. It's our goal to be the one partner best suited to help professionals succeed. We continuously invest in products and platforms readily available through the Snap One Portal and at Snap One Partner Stores across the U.S. Visit **SnapOne.com** or call **866.424.4489** to learn how Snap One's products and services can help you grow and optimize your business.

We will never compete with you

We only sell to custom integrators. This means you'll never get price shopped by your own clients and enables you to profit on hardware sales.

Predictable pricing

We offer straightforward, transparent pricing. No order minimums or hidden policies.

Try it, you'll like it

Save on anything you buy in a product category that you haven't tried yet.

Free shipping for partners

Spend a certain amount per year with us to enter the Partner Rewards program and get free shipping on all purchases, even freight.

60-day returns

You'll always have 60 days for returns or exchanges, so you never have to worry.

Partner rewards

Save more on the items you buy every day with our Partner Rewards program, including free shipping, discount pricing, and quarterly rebates–plus exclusive benefits like special product discounts, advanced replacements, and more.

Advanced replacement warranty

We stand by everything we sell with our advanced replacement warranty, so you can get your client up and running without a second visit and with fewer truck rolls.

You influence our products

Experience direct access to our product development team.

Award-winning service and support

Our partner and tech support specialists provide award-winning service from 8:30 a.m. - 8 p.m. EST, Monday-Friday.

Simple, Robust, and Reliable Connectivity

Araknis provides a portfolio of devices and features to help you deliver a fast and reliable network that is easy to install and update. Every access point, switch, and router we sell has been put to the test in the Araknis Lab, ensuring strength, quality, and reliability. In addition, every Araknis product is enabled with OvrC, our free cloud management platform, empowering you to monitor and support your networks remotely while also reducing truck rolls, protecting margins, and increasing profitability.

Switches

Support all network needs with a full line of professional-grade switches. The entire Araknis switch family offers full Gigabit throughput, PoE/PoE+, front and rear port options, and cloud management through OvrC to monitor and control the network from miles away.

110 Series

5, 8, 16, and 24 Port Options

- Unmanaged+
- Fanless Operation
- Compact Model Available
- OvrC Remote Management

210 Series

8, 16, 24, and 48 Port Options

- L2 Websmart
- Partial PoE/PoE+
- Dual SFP Uplinks
- OvrC Remote Management

310 Series

8, 16, 24, and 48 Port Options

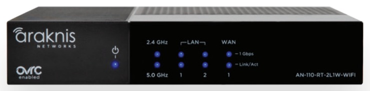
- L2 Managed
- Full PoE/PoE+
- Dual SFP Uplinks
- OvrC Remote Management

Routers

Our routers support Gigabit internet and come embedded with OvrC Pro for complete network monitoring and support. We've designed a go-to router for the professional system integrator. And with three distinct models to choose from, you will have a reliable router for every job in the queue.

110 Series

- 1 WAN Port
- 2 LAN Ports



110 Series with Wi-Fi

- 1 WAN Port
- 2 LAN Ports
- Built-In 2x2 Wave 2 AC Wi-Fi

310 Series

- 2 WAN Ports
- 4 LAN Ports
- Embedded Firewall

Access Points

Delivering powerful performance, Araknis Wireless Access Points are part of an exclusive, protected line of products. Choose from indoor and outdoor functionality, round or square designs, and wall or ceiling mount models. Mounting plates, mounting templates, and backing plates make installation incredibly simple.

510 Indoor

- 1300 Mbps
- Wave 2 Wireless AC
- 2x2 Antenna Configuration
- 2.4 GHz and 5GHz Capable

510 Wall Mount

- 1300 Mbps
- Wave 2 Wireless AC
- 2x2 Antenna Configuration
- 2.4 GHz and 5GHz Capable

810 Indoor

- 2600 Mbps
- Wave 2 Wireless AC
- 4x4 Antenna Configuration
- 2.4 GHz and 5GHz Capable

700 Outdoor

- 1750 Mbps
- Wireless AC
- 3x3 Antenna Configuration
- Weather Resistant

Managed in the Cloud with OvrC

OvrC cloud management platform makes setting up, updating, and managing IP-enabled devices simple, from any location, with no licensing fees. An end-user app allows your clients to reset devices based on macros that you customize.

High Performance Networking

Access Networks is a trusted provider of enterprise-grade networking solutions and managed services built for the custom integration market. Our offerings span from singular product purchases to full custom configured network solutions tailored specifically to a unique environment. Our mission is to deliver reliable and secure networks that allow the end-user to stay connected in spaces of any size and bandwidth requirement.

Access Networks Products

Our products and solutions include four years of Access Networks support from our team of certified engineers and are only available to Authorized Dealers and are price protected.

Wireless Access Points

- High performing, enterprise-grade hardware
- Packed with patented technologies
- Wi-Fi indoor and outdoor options

ARCC

- Cloud based network controller
- Reduces on-site equipment which means fewer points of failure and less time spent on site during installation
- Great way to add recurring revenue to your business

Switches

- The ANX7150 family of stackable switches deliver performance, flexibility, and scalability.
- ANX Multi-gigabit Ethernet technology offers bandwidth speeds needed to optimize performance.
- Rack mountable

Integrator must be an authorized Access Networks dealer to access these products. Visit accessnetworks.com or email clientservices@accessnetworks.com to learn more.

Core Systems

Custom Core Systems provide the end-to-end solution needed to confidently deploy a reliable network of any size and complexity. Core Systems are available as a turn-key wireless only solution, or as a complete wired and wireless system for your project.

Preconfigured

- The system is preconfigured with the details provided so when it arrives on site, it's ready for install

Support

- 4 years of support from Access Networks' certified engineers
- 1 year of advanced hardware replacement

Live Monitoring

- 1 year of Access Networks Live Monitoring included, a proactive service that makes our team of network engineers your first responder

Security

- With Core Systems, the Sophos Firewall Router provides net generation enterprise-grade performance and protection

Partner Products

Ruckus

Our longstanding partnership with Ruckus provides Snap One Partners with enterprise-grade access points, switches, and controllers paired with industry-leading support from the team at Access Networks.

Sophos

Sophos Router/Firewall offers the features and versatility needed to secure unique environments. Sophos Firewall delivers enterprise-grade protection, unmatched risk visibility, and all the flexibility you need to power today's most demanding networks.

NetAlly

NetAlly delivers enterprise-level wireless network tools for designing, deploying, and optimizing wireless LANs. From planning and deployment to ongoing network troubleshooting, the AirMagnet network tools span the entire WLAN lifecycle.

Power Where You Need It.

WattBox is designed to revolutionize the way you think about power. We deliver every form factor you can imagine, remote management, a robust lineup of IP and traditional power conditioners, surge protection devices, uninterruptible power supplies, and a suite of accessories to help you complete the job.

IP Power

800 Series

6, 8, 12, and 18 Outlet Models

- Vertical & 1U form factors
- Premium surge protection
- OvrC compatible

700 Series

12 Controllable Outlets

- Premium Surge Protection
- Noise Filtration
- OvrC Compatible

300 Series

3 and 5 Outlet Models

- Premium Surge Protection
- OvrC Compatible
- Self-Healing Auto Reboot

150 & 250 Series

150 Series

1 Controlled Bank, 2 Outlets

With its affordable price point and truck-roll eliminating power of OvrC, it just makes sense to keep a ready stock of these models on your truck. Whether your job requires Wi-Fi or wired connectivity, the 150 has you covered.

250 Series

2 Individually Controlled Outlets

Deliver maximum uptime more easily than ever before with the award-winning, compact Wi-Fi WattBox with individually controlled outlets, professional-grade surge protection, and OvrC functionality. Wired and Wi-Fi/Wired options available.

Uninterruptable Power Supplies

Pair an OvrC-enabled Uninterruptible Power Supply (UPS) with a 300- or 800-Series WattBox to receive battery status information and to prioritize mission-critical equipment during a power loss or brownout.

350VA

Ultra-Compact

- Standby UPS
- OvrC-Enabled Battery Backup
- Surge Protection

1100VA, 1500VA, and 2000VA

Rackmount

- Outlets and Battery Backup
- Single Chassis
- Flexible Option

625VA and 850VA

Standby

- Standby UPS & OvrC Battery
- Surge Protection
- Remote Management

WattBox with OvrC Cloud Management

Connect an IP WattBox to enable OvrC cloud functionality. Pair the WattBox UPS with the IP power conditioner and experience the power of OvrC. You can monitor the UPS battery's health and set up load shedding of outlets when power is lost.

OvrC is a free, cloud-based remote management and monitoring platform designed by Snap One exclusively for professionals. From setup to support, OvrC empowers you to install, monitor, and troubleshoot connected devices remotely, helping you deliver support from anywhere.

OvrC Pro

OvrC Pro extends your visibility and access to the entire network of IP devices, including non-Snap One products. OvrC Pro provides access for enhanced troubleshooting capabilities and diagnostic data that makes remote support easy and eliminates unnecessary truck rolls.

Monitor Devices

Remote Access

Product Integrations

Remote Management

Real-Time Notifications

Receive alerts and troubleshoot common issues before your customer even realizes there's a problem. Plus, batch notifications provide you with a single offline alert based on location.

Remote Reboots

OvrC allows you to remotely reboot Snap One devices or those powered through a WattBox or Araknis PoE switch, instead of rolling a truck.

Modify Configurations

Through an easy-to-use interface, you can modify the most common configuration settings of a device in OvrC – even after your install is complete.

Firmware Updates

If a firmware update is available, you'll instantly be notified. Then you can update the device remotely with a single click.

Remote Access

Get remote, secure access to a device's local UI with just the click of a button, where you can access advanced configuration settings.

Client-Facing Mobile App

Through OvrC Home, customers can fix common issues and manage certain Wi-Fi settings on their own time.

Personalized Smart Deployments

Control4 is the flagship smart living and automation brand for Snap One, offering a unified experience that automates and personalizes connected devices, including lighting, A/V distribution, high-res audio streaming, climate control, intercom, security, and voice assistants.

Controllers

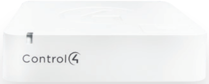
Control4's CORE and CA Series Controllers are the foundation for any Smart Deployment. They enable high-res audio streaming and media control, surveillance and security integration, scene selection, and personalized automation experiences.

CORE Series Controllers

- Multi-core processor for device control and automated experiences
- Ryff: high-resolution audio platform for multi-zone streaming
- OvrC Pro enabled
- HDMI provides 4K OnScreen Menu

CA-10 – For the Largest and Most Demanding Jobs

- Dual, redundant gigabit Ethernet ports, power supplies and cooling fans
- Dual, redundant field-replaceable SSD in mirrored RAID configuration
- OvrC Pro enabled



CA-1 – Getting Started or Expanding Control

- Control for IP, ZigBee & serial devices; option for Z-Wave
- AC or PoE powered
- OvrC Pro enabled

Integrator must be an authorized Control4 dealer to access these products. Visit control4.com/partners to learn more.

Interfaces

Control4 OS 3 delivers a powerful and intuitive interface for device control, media selection, and personalized experiences, including favoriting the rooms, devices, and media customers use most. Plus, the intelligent platform provides equalizer controls, a single page of controls for MultiDisplay rooms, and color-wheel controls.

T4 Series Touchscreens

- 8" & 10" in-wall or tabletop
- 1920 x 1200 screen resolution
- Dual microphones & larger speakers
- PoE or AC-powered and Wi-Fi

Neeo Remote for Control4

- 480x800 pixel LED backlit capacitive touchscreen
- Intuitive experience with multi-zonal controls
- Wi-Fi (802.11b/g/n) connected

SR-260 Remote Control

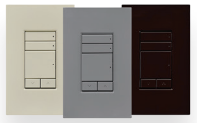
- Ergonomic, programmable, LED backlit buttons
- Lithium-polymer rechargeable battery with charging station
- Zigbee connected

Smart Lighting

Control4 Smart Lighting replaces "dumb" dimmers and light switches with sleek hard-button interfaces that provide elegant lighting control while responding automatically to desired light levels. Keypads quickly add user controls to any room and can be programmed for media, lighting, or personalized automated experiences.

Lighting Control

- Adaptive Phase, Forward Phase, and 0-10V dimmers
- Switch for motors and non-dimmable loads
- Mechanical switches for 3- & 4-way locations



Keypads

- Keypad, Keypad Dimmer, Fan Speed Controller options with up to 37 possible button configurations
- Programmable RGB LEDs
- Zigbee or RS-485 wired options

Outlets

- Receptacle Switch Outlet, Plug-in Dimmer Outlet, Plug-in Switch Outlet, Outdoor Switch Outlet
- Zigbee controlled and acts as a repeater

Doorbells and Door Stations

Give your customers complete visibility of their property with our video Doorbells and Door Stations. With stunning HD, immediate notifications, and the ability to communicate with visitors, these devices deliver valuable peace of mind.

Chime Video Doorbell

- 5MP HD camera, 180-degree field view, Night mode, IR LEDS
- Programmable motion and zone events
- Wi-Fi and PoE models

Door Station

- Flush-mount & surface-mount
- Keypad module, touch pad module, no module options
- Motion detection, call button press, and keypad entry events

Door Station Mini

- Flush-mount & surface-mount
- Motion detection, call button press, and keypad entry events

Innovative Media Distribution Solutions

BINARY
B-900-MOIP-4K-CTRL
CONTROLLER

Binary media distribution solutions are designed, engineered, and tested in-house to deliver reliable 4K HDR solutions up to uncompressed 18Gbps. Our in-house Test & Validation team pushes every product to its limits, ensuring strength, quality, and reliability for years to come.

Switches and Splitters

Matrix Switchers

Multiple Inputs and Outputs

Enables System Switching, Setup, and OvrC Remote Access.

Switchers

Multiple Inputs, One Output

Select from multiple HDMI sources and send to a single display.

B-260 Splitter

One Input, Multiple Outputs

- Independent Downscaling
- Audio Breakout
- Full EDID Control
- Up to 8 outputs

Media Over IP (MoIP)

With MoIP, each source is encoded and visually lossless at the highest quality possible, then decoded and scaled to the desired resolution. And with MoIP Audio, you can distribute 2-channel audio throughout the property in the same network.

Less Than 5 Minute Auto Setup • Virtual IR Routing • RS-232 Over IP • OvrC Enabled

Controller

One Required Per System

- Control System Integration
- IP Controllable

Transmitter

One Required Per Source

- Audio Embed/De-embed
- HDMI Loop Out

Receiver

One Required Per Display

- Downscales 4K to 1080p
- Audio De-embed

Binary MoIP: Audio/Video

4K MoIP Receiver with Audio Downmixing

- Visually lossless decoding up to 4K HDR
- Scaling to support 1080p
- 2CH Audio De-embedding
- OvrC-enabled
- Audio Downmixing, Audio Lip Sync Adjustment

4K MoIP Transmitter with Audio Downmixing

- Visually lossless decoding up to 4K HDR
- Scaling to support 1080p
- 2CH Audio De-embedding
- OvrC-enabled
- Audio Downmixing, Audio Lip Sync Adjustment

Media over IP Audio Receiver

- 2-ch audio receiver
- Synchronized audio to eliminate delays
- OvrC-enabled remote management

Media over IP Audio Transmitter

- 2-ch audio transmitter
- Synchronized audio to eliminate delays
- OvrC-enabled remote management

HDMI Cables

Binary HDMI cables deliver the highest quality resolution with unprecedented strength - up to 48Gbps 8K video with the HDMI 2.1 specification. These HDMI cables feature reinforced connectors and enhanced pull and bend strength to handle all residential, IT, and commercial applications.

B4 Series

4K @ 30Hz up to 7.5m

Enjoy an affordable 4K solution for any job that needs 10.2 Gbps and low profile connector head.

B6 Active Series

4K @ 60Hz up to 20m*

Our B6 Active cables support Ultra HD 4K @ 60Hz with 18Gbps of bandwidth. No external power required.

B8 Series

4K @ 60Hz up to 50m

For uncompressed 4K with HDR at the longest distances, there's no substitute for fiber optics. No external power required.

BX Series

8K @ 60Hz up to 20m

Our Binary BX cables feature zinc metal heads and provide 8K UHD @ 60Hz with 48Gbps of bandwidth.

Conferencing and Control

Snap One and Atlona are committed to the success of today's custom integrator. Within Atlona's premium video distribution technology lies a dedication in delivering the very best, growing your business through cutting edge video distribution your clients will rave about. From switchers to extenders, create a powerful home theater or innovative boardroom with Atlona's extensive lineup – all under one roof.

Atlona Video Distribution

Matrix Switchers & Switches

This robust line of matrix switches and switchers features a variety of dual-mirrored HDMI/ HDBaseT outputs, multiple inputs for easy system integration, and can transmit 4K HDR and 4K Ultra HD signals anywhere, fast.

Extenders & AV over IP

With extenders and AV over IP, you get a convenient install that's extremely versatile with PoE, low latency 4K/Ultra HD delivery, and the ability to scale up and plan for future system improvements.

Commercial Products

Atlona's commercial lineup provides integrators with state-of-the-art technology to design engaging business solutions and create innovative communications between any number of displays and sources.

For Conference Rooms

Atlona's conference room products offer everything you need to build a complete video conferencing solution – including USB-C video, PTZ webcams, and Wi-Fi presenting.

High-Performance Custom Speakers

From intimate media rooms to world-class home cinemas, Triad delivers the ultimate acoustic experience. Designed and built in Portland, Oregon, Triad combines technology, automation, and dedicated artistry to drive built-to-order, continuous flow manufacturing along with high-performance sound. Triad also offers custom paint and veneer matching for seamless aesthetics.

Triad Audio Solutions

Home Theater

Triad delivers the dynamic sound of a commercial theater. LCRs provide incredible audio in any room, and freestanding and bookshelf speakers can be built to your exact specs, including matched colors or wood surfaces.

Soundbars

Triad has arguably the most extensive custom soundbar selection on the market, delivering unprecedented sound quality to any size space. And in addition to standard width, custom soundbars up to 82" are available.

Architectural

Triad offers an extensive selection of in-ceiling and in-wall speakers that deliver home theater quality sound throughout the property while blending in discreetly with interior designs.

Integrator must be an authorized Triad dealer to access these products. Visit snapav.com to learn more.

The Next Generation of Sound

Episode speakers are engineered for incredible sound that your customers will love with installation features that your techs will appreciate. With a complete lineup of high-value to high-end speakers and amplifiers, Episode has the right pieces for any project and every budget.

Signature by Episode

Signature by Episode speakers deliver immersive audio experiences in any environment, and feature PushLock technology and a broad range of accessories designed to make installation a breeze.

3 Series

In-Wall and In-Ceiling Options

Our 3 Series is anything but entry level. A polypropylene woofer and silk dome tweeter deliver all-purpose performance for any room.

5 Series

In-Wall and In-Ceiling Options

Kick your audio install up a notch with the 5 Series, crafted with a polypropylene woofer and adjustable, silk dome tweeter – both with vacuum-deposited titanium.

7 Series

In-Wall and In-Ceiling Options

For the sophisticated listener, opt for the 7 Series. A honeycomb fiberglass Nomex woofer and pure titanium tweeter for audiophile applications offers the best in distributed audio or home theater sound.

Episode Core Series

The Episode CORE Series delivers stunning sound at a great price without sacrificing performance. With a comprehensive line of in-wall and in-ceiling speakers, including all-weather and dual voice coil/surround hybrid models, you can deliver an immersive audio experience and excellent value.

1 Series

In-Wall and In-Ceiling Options

The CORE 1 series features a vacuum-formed polypropylene woofer and mylar dome tweeter for impeccable clarity and powerful, controlled bass.

3 Series

In-Wall and In-Ceiling Options

The CORE 3 series features a vacuum-formed polypropylene woofer and fabric dome tweeter for a smooth frequency response and high-performance bass.

5 Series

In-Wall and In-Ceiling Options

The CORE 5 series features an injection-molded polypropylene cone and Teteron dome tweeter for an audible difference in sound performance with increased audio dispersion.

Episode Amplifiers

Episode Mini 5.1 AVR

Episode Mini AV Receiver

The Episode Mini 5.1 AVR delivers incredible surround sound from a small form factor for rooms that lack space for traditional electronics.

Episode Response DSP Amplifiers (4 Models)

The Episode Response Amplifiers take multiroom audio to the next level, giving pros a matrix switching DSP amp to deliver incredible audio in up to eight rooms - all in one convenient package.

Episode Speakers

Episode Impression Speakers

Satellite and Band-Pass Subwoofer

Delight the interior designer as well as the customer with the Episode Impression Series—designed to blend into the environment without sacrificing on audio performance.

Voice Controlled Audio

WAKE Amp™

In-Wall Bluetooth Amplifier

Connect your customer's smart voice assistant to all their speakers with the WAKE Amp and break down the barriers of intricate audio systems by enabling control via voice commands.

Episode Subwoofers

Element Series

8", 10", and 12" Options

If your customer wants the most boom for their buck, look no further than the Episode Element Ported, Powered Subwoofer.

Evolution Series

6", 8", 10", and 12" Options

Episode Evolution Series Sealed Subwoofers deliver tight, striking bass. They are the perfect complement to our Episode speakers and soundbars.

Triple Series

8" and 10" Options

Episode Triple Series Passive Radiator Subwoofers combine stunning good looks with three woven fiberglass woofers to deliver one amazing experience.

In-Wall Series

Single and Dual Options

Our flagship Episode Passive In-Wall Subwoofer is a culmination of world-class engineering and uncompromising component selection.

MEGA Subwoofer

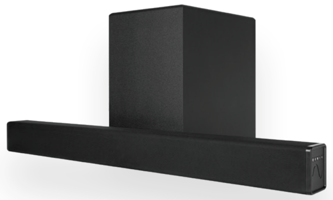
Single and Dual Options

These powerful professional-grade smart subs give you elite bass with smart features like a companion app, audio EQ, and a wireless audio receiver built-in.

Soundbars

Expandable

This 3-channel expandable soundbar provides a premium audio experience while perfectly matching TV width, with left and right channels that expand to better fill the room.



2.1 Active

The new Episode 2.1 Active Soundbar System with 8" Wireless Subwoofer is the easiest and fastest way to upgrade the sound on any TV.

350 Series

Perfect for small to medium-sized spaces, this sleek soundbar uses three independent speakers, left, center, and right channels, to deliver an immersive audio experience.

550 Series

Episode 550 Series Thin Bezel Soundbars offer excellent customizable sound, designed to suit any audio application or customer preference.

70V Speakers and Amps

With a comprehensive line of in-ceiling, on-wall, and pendant speakers, along with cloud-managed amps, Episode has what you need to grow your commercial business. And with features like magnetic grilles, tool-less tap settings, and easy mounting, these solutions are a breeze to install.

Pendant Speakers

4" and 6" Options

Ideal for spaces with tall, open ceilings, Episode Pendant speakers get sound down where you need it.

In-Ceiling

4", 6", and 8" Options

Episode In-Ceiling Speakers deliver a stellar performance for background music and paging applications.

Surface Mount

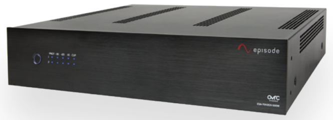
4", 6", and 8" Options

These durable, all-weather speakers use quality components to deliver great sound no matter the circumstance.

Hybrid Amps

1000 and 2000 Watt Options

- 2 Channel 70V/8-ohm
- IP Control
- Cloud Managed



IP-Enabled Amplifier

150, 300, and 500 Watt Options

- OvrC-enabled
- IR, RS-232, IP, URC, and Control4 Drivers
- 2-Channel Amplifier

Mixer-Amplifier

60, 120, and 240 Watt Options

- Front Panel Controls
- 70V, 100V and 4-Ohm Capable

The Sound Choice for Businesses

With extensive experience in high-end musical instruments and delivering broadcast-grade sound worldwide, Yamaha has brought that same engineering prowess and excellence to offer commercial integrators easy-to-install system packages. With a thorough line of DSPs, control systems, amplifiers, speakers, and more, Yamaha Pro delivers the product solutions you need to get the job done right.

Commercial Audio

Mixers and DSPs

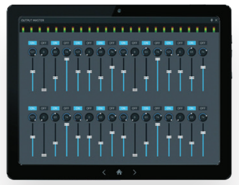
Yamaha offers traditional mixing consoles for direct end-user control and DSPs with technology like Dante, YDIF, and ProVisionaire Control.

Power Amplifiers

Yamaha Pro Amps boast Class-AB sound quality, response, and power with class-D efficiency and exclusive Yamaha EEEngine patented technology.

Full Speaker Lineup

With a full line of surface mounts, ceiling mounts, line array, and large format speakers, you'll have the tools needed to tackle more projects.



Control

Complete the install with a range of keypad control systems that are both simple for end-customers to use and even more simple to program.

Network Switches

Yamaha uses its knowledge of both IT and pro audio to provide network switches that have been optimized for Dante networked audio, creating highly reliable networks while minimizing equipment costs.

Stunning Resolution for Every Install

Dragonfly HD Screens

Dragonfly screens come in three materials for excellent performance in any application, whether there is controlled lighting or a room full of windows. If you're looking for crisp screen performance, Dragonfly's Ultra line and BenQ projectors deliver incredible performance for true 4K UHD and 1080p systems.

ULTRA BLACK ALR

Ultra Black ALR

Recessed • Motorized • Fixed

This smooth screen material absorbs and rejects ambient light, delivering truer color contrast in naturally-lit rooms. Fixed option is also available in thin bezel.

ULTRA WHITE

Ultra White

Recessed • Motorized • Fixed

Provide enhanced resolution with this texture-free material; it's got a gain of 1.3 and is optimized for 4K systems. Fixed option is also available in thin bezel.

ULTRA ACOUSTI WEAVE

Ultra Acoustiweave

Recessed • Motorized • Fixed

These 4K-optimized, acoustically transparent screens help you hide any set of speakers without damping sound quality. Fixed option is available in thin bezel.

Dragonfly HD

High Contrast

Fixed Option Only

Creates a rich, enhanced image and better color balance in a variety of 1080p systems.

Matte White

Fixed Option Only

Reduces light "ripples" and creates impeccable color balance in a variety of 1080p systems.

BrightSign

Digital Signage Media Players

BrightSign is the global leader in digital signage media players, with over a million players shipped to date. BrightSign offers PC-class performance and reliability without the hassles and complications of a PC, with the ability to manage content ranging from one-off installs to cloud-based global management.

LS424 Standard I/O Player

- Entry level media player
- Commercial-grade player
- Compact design

HD1024 Expanded I/O Player

- Mainstream performance with standard I/O
- Ideal for mainstream 4K
- Full HD single video decoding

HO523 OPS Player

- HD class performance in OPS compatible module
- Part of the Series 3 product family

XD1034 Expanded I/O Player

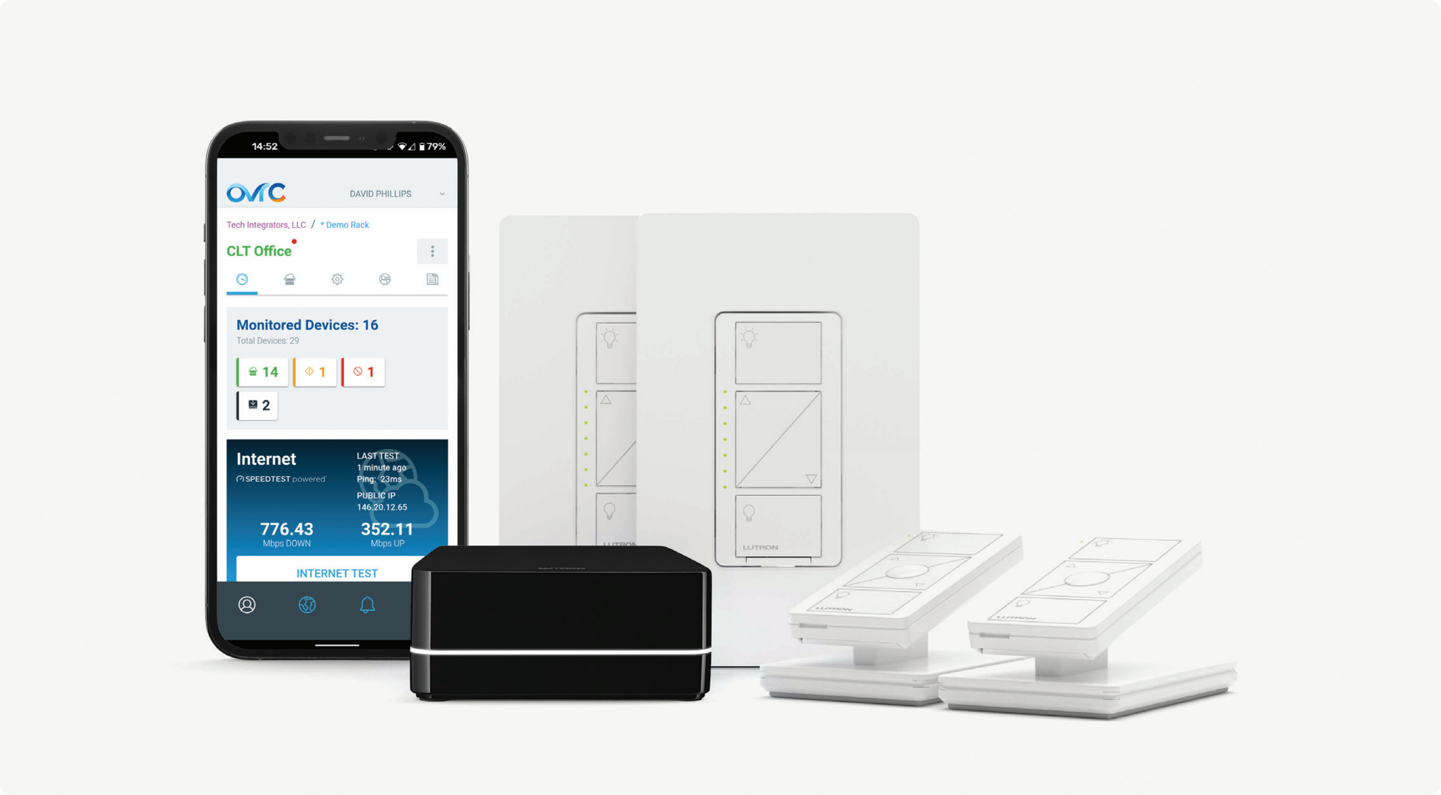
- Advanced performance with expanded I/O
- Supports all tech standards of True 4K ecosystem

XT1144 Expanded I/O Player

- Enterprise performance with expanded I/O
- 4K video engine for leading-edge installations

LUTRON

Lighting the Way Forward



We've integrated OvrC into one of the biggest names in lighting, so you're able to leverage exceptional remote management of RA2 Select products. Lutron's RA2 Select line is a robust, professional solution for integrators. It offers personalized, smart lighting control to clients at flexible price points, while ensuring their overall comfort and peace of mind.

RA2 Select

This Snap One exclusive, OvrC-enabled RA2 Select main repeater acts as the brain of the smart lighting system, and enables seamless setup, wireless control, and monitoring of RA2 Select devices from a smartphone or tablet. Native OvrC integration provides unprecedented remote configuration and management of the RA2 Select system through a secure cloud-to-cloud connection.

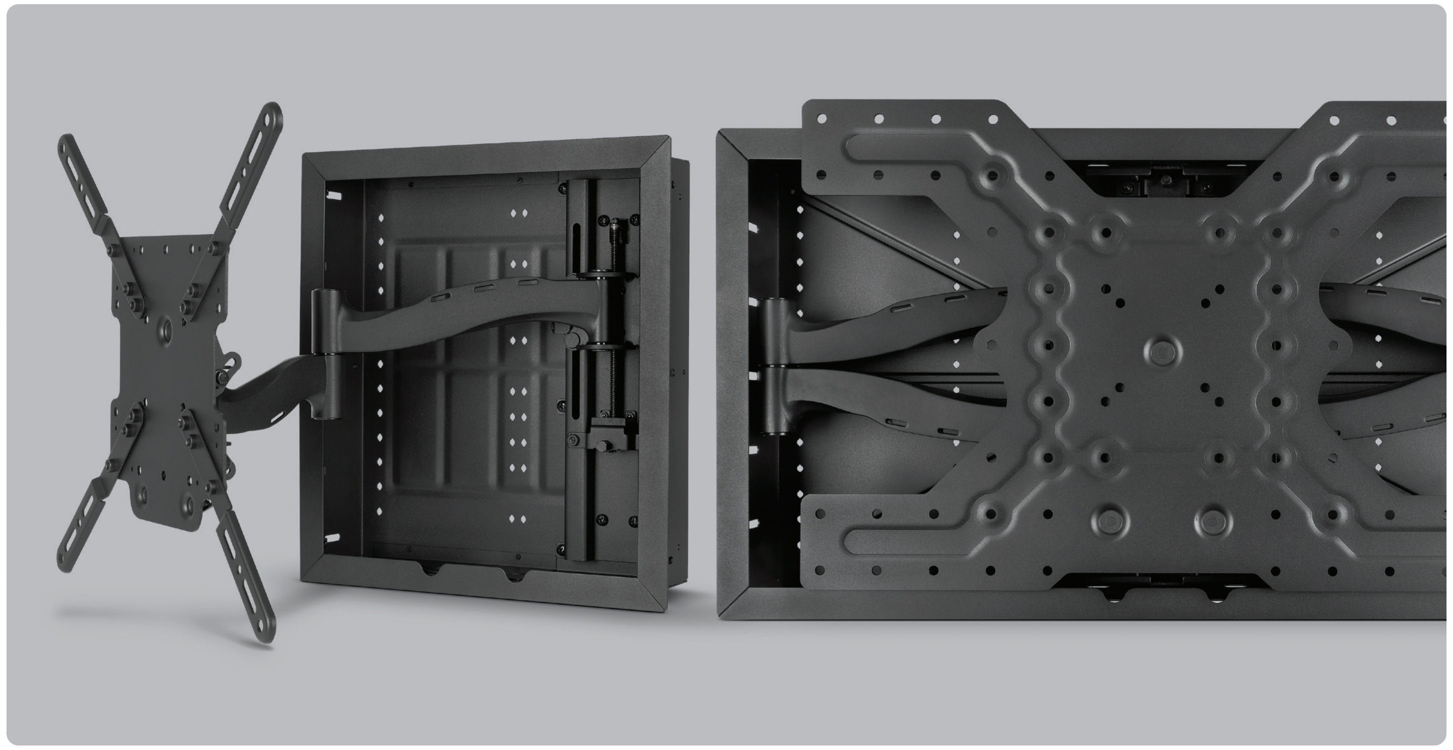
STRONG

Strength and Versatility



Strong offers a complete line of racks, mounts, and innovative storage solutions. Our racks are available prebuilt or in custom options, with all the shelves, wire management, and other accessories dealers need to complete the job. Our mounts deliver the industry's lowest profiles and come in fixed, tilt, motion, ceiling, and projector mounts. Hide it all with our backboxes and enclosures for a clean look.

Mounts

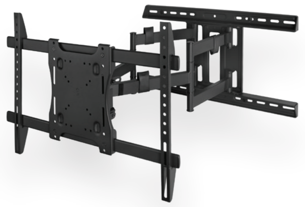
The Razor™ and VersaMount™ lines deliver the industry's lowest profiles, while our Carbon Series offers the strength and price point needed for the everyday install. The Base Series provides a slightly reduced weight rating for slimmer, price-conscious applications.

Razor Series

Fixed • Tilt • Articulating

24-55" Displays

Made for today's ultra-thin TVs, the Razor Series fits snug against the wall and features a kickstand for running wires, an adjustable safety release ring, and more.



Carbon Series

Fixed • Tilt • Articulating

40-80" Displays

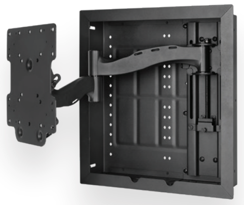
Our Carbon Series features 3/4" of post-install adjustment and a durable locking mechanism with strings that can be hidden with magnetic cord covers.

Base Series

Fixed • Tilt • Articulating

49-90" Displays

Our base series features sturdy 2.5mm thick steel in a thin design with post-install leveling screws, built-on lockable tabs, and an easy-to-use wall plate.



VersaMount Series

24"x55", 40"x80"

The VersaMount is Strong's best and most versatile mount yet, setting a new standard in low-profile articulation with the ability to position TVs from flush to 16" off the wall and up to 5" of post install height adjustment.

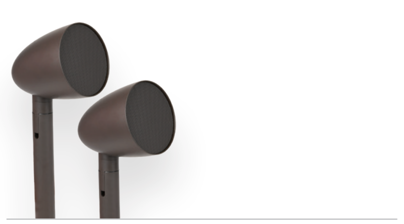
Outdoor Audio

Great outdoor audio should be heard, not seen, and these aesthetically pleasing speakers and subwoofers blend right into your outdoor space without missing a beat. Whether mounted on the ground, in a tree, under a trellis, or anywhere else, Episode delivers top-notch audio without drawing attention to themselves.



Satellite Speakers

4", 6", and 8" Options

Tested to withstand between -20° and 185°F, these remarkably durable speakers handle the elements and still deliver crisp natural sound. Install in 70V or 8-ohm systems.

Subwoofers

8", 10", and 12" Options

Deliver booming sound in any outdoor area! For built areas, choose the stylish yet discreet hardscape sub. For landscape installs, the burial sub adds bass without disrupting aesthetics.

Rock Speakers

6.5" and 8" Options

Episode Rock speakers are constructed with a Polypropylene cone and dual Titanium tweeters for premium outdoor sound. Available in granite and sandstone finishes.

Terrain Landscape Kit

4 and 8 Speaker Kit Options

Two-way speakers and choice of hardscape or burial sub allow this system to play lower and louder. Plus, the quick-connect system makes for easy install and scalability.

Omni-Directional Speakers

6.5" Option

High quality, affordable, and flexible! These speakers handle temperatures between -20° and 185°F and offer 360° of coverage for top performance without hot spots in 70V or 8-ohm systems.

Surface Mount Speakers

4", 6", and 8" Options

These speakers use a high-temp voice coil and aluminum dome tweeter to deliver stunning high-dispersion sound. And the easy-locking bracket makes mounting a breeze.

Fully Integrated Conference Systems

Nearus, ClearOne, and Sense have the conferencing solutions you need to design and install an easy and intuitive conferencing space—whether you're creating a small huddle room or a large video conference system.
